The purpose of this website is to highlight independent films made by Michigan filmmakers, network those filmmakers and actors together, as well as give out helpful information for making independent films.

Membership is free and open to everyone - Register Now!

We cater to the low budget indie filmmaker here in Michigan. Those struggling to get their vision on screen.

This site is still in it's infancy. In the future we are working toward spotlighting films made in Michigan by Michigan filmmakers. We will be featuring full articles about the film and a Q&A session with the filmmakers.

The front page will also become a place to post news about upcoming events like film premiere's and local meetings.

If you have any other ideas to make the site better, please contact us.

Thank you
